75. Planning Application**Wilscombe Ltd., Industrial Estate**

Application to remove condition (5) of p.p. relating to the prohibition of use of machinery on Sunday, Bank Holidays and Christmas Day and the restriction of use on weekdays to between the hours of 0700 and 1900 hours and on Saturdays to between 0700 and 1300 hours.

The Chairman read the letter submitted by the applicant to which the following observations were made. Excel Logistics do not work a 7 day week, this was a large 4 acre site, the lighting now envisaged on the plans in the roof of the proposed building would not be sound proof (no building plans were included with the original application), It was felt that nearby units, including offices, could be affected by the noise, a high level of sound proofing would be needed together with air conditioning.

With the noise level and th effect it could have on the residents of the village uppermost in the Council's mind, Committeee decided to oppose the application to remove clause (5) of the conditions of approval dated 10 July 1996.
