85. Equipment

The Committee considered this issue and decided that with the size of area involved for the skate boarding, professional advice would be required before we came to try and lay out the site. The clerk was left to liaise with Councillors Blackmore and Maynard to see what arrangements had been made before proceeding. It was proposed to undertake the work on the weekend of 19th/20th October. This would leave the following weekend as a fall back.
